

Harold Thompson

Having a UCP helps Harold as if his condition worsens, care home staff and health professionals will already know his preferred treatment goals, reducing confusion or delay.

Date of Birth: 11/12/1945
NHS Number: 9994443593

Care Home number: 07939 789245
Preferred name: Harold

Personal info

Religion: Church of England
Ethnicity: White – British
Sexuality: Heterosexual
Gender: Male
Preferred pronouns: He/him/his
Occupation: Fully retired, previously bus mechanic
Address: Cherrywood Residential Care Home, Sutton, SM7 4NW

Communication and behavior

- I have moderate hearing loss and prefer face-to-face communication.
- I wear hearing aids but sometimes I forgot to put them in or misplace them.
- I respond best when people speak clearly, at a slower pace and avoid background noise where possible.
- At appointments, I like to have someone familiar with me.

Medical

- Osteoarthritis in knees and hips. I need assistance with mobility, especially in the mornings. I use a walker and occasionally a wheelchair for longer distance.
- I was diagnosed with Chronic Obstructive Pulmonary Disease (COPD). I use a salbutamol inhaler and a home nebuliser. I need support with medication adherence and monitoring my oxygen levels.
- I am living with moderate frailty.
- I want to avoid hospital admission and remain at the care home where possible

About me

- I can be reserved at first but warm up around familiar staff.
- It's important to me that I remain as independent as possible.
- I moved into the care home following the death of my wife, Joyce, who I was married to for 58 years. I have a close relationship with my niece, Sandra, who visits regularly.
- I like waking up early to have a cup of tea and listen to the radio.
- Most days I will complete the crossword and go for a walk in the garden if the weather is good.
- I like to listening to jazz music, watching snooker.
